

South Agri
10 YEARS

Your trustworthy supplier in Brazil

Brazilian Market: Soybean Meal | Soybean | Yellow Corn | Wheat | Cottonseed |
Sugar | Live Cattle

Agricultural Trading

Origination, marketing and distribution

We connect producers and users of grains and oilseeds around the globe through origination, trading, processing, and distribution, as well as offering a range of farmer services and risk management solutions.

Grains

We operate on an integrated global basis to source, store, trade, process and distribute grains including wheat, corn, soybean, soymeal and sorghum, as well as live cattle's and meals. We have a broad global presence in grain origination, shipping and processing and we have developed significant expertise in handling identity preserved and differentiated products. Our supply chain efficiency combined with origin and logistical flexibility enables us to deliver significant value to our customers around the world. We also work closely with South Agri finance and risk management businesses to offer a range of financial and hedging products.

BRAZILIAN Farmer Services

Crop inputs

South Agri offers crop protection, seed, and fertilizer products and services at many locations in Brazil.

Grain handling

With 200 grain handling facilities across Brazil, and links to markets all over the world, South Agri & Minerals has the capacity to connect

growers to end users around the globe.

Company Overview

We bring food, agricultural, and industrial products to people who need them all around the world. You learn a few things during 20 years in business. Today, we apply that expertise to serve customers and communities in 30 countries/regions. We have skill and good employees working every day to nourish the world in a safe, responsible, sustainable way. Find out more about our global operations.

South Agri & Minerals: an essential link in the commodities supply chain.

South Agri & Minerals originates, transports, manages logistics, trades and distributes agricultural products to importers abroad and international clients.

Our highly experienced sourcing and operational teams allow us to have a very strong presence in Brazil's main producing regions and easy access to the main players in the international agricultural commodities markets.

South Agri & Minerals believes in developing and maintaining solid partnerships with its suppliers and clients with the intent of serving the world's agricultural commodities consumers.

Connecting supply and demand

SOUTH AGRI & Minerals is present on both ends of the agribusiness supply chain:

- We place our suppliers' (cooperatives, dealers and farmers) products in the international markets by developing new markets and by providing liquidity to their operations.
- We supply our clients (trading companies, exporters, crushers, feed industries, etc.) with competitive products within industry excellence standards on a FOB or CFR basis.

MINERALS & SHIPPING

We offer our customers physical supply and risk management solutions in global minerals markets, including iron ore, copper, manganese, niobium and cassiterite. We also are a provider in ocean freight with a sizable fleet and global footprint to provide more choices for getting the right vessel to the right port for our customers.

South Agri & minerals supply chain

As a miners owners and exporter in the minerals market, South Agri helps you manage volatility and increase profitability through tailored physical supply and financial solutions in Iron Ore, copper, manganese, niobium and cassiterite.

Our integrated supply chain combined with unmatched financial, risk management, logistics and technical expertise guarantee your operations and optimize your business so that you can focus on growth.

As a well-established company with a 20 years track record of successful risk management in the global commodities markets, we offer you our unique insight into the ferrous market trends and movements to give your business greater stability and an undisputed advantage in the market place.

Worldwide minerals offerings

International Minerals

South Agri & Minerals Supply Chain is active in global Iron Ore, copper, manganese, niobium and cassiterite markets, where we help miners, steel mills and end users manage volatility and increase profitability through tailored physical supply and financial solutions

Product access and competitive price

Every year we procure Iron Ore, copper, manganese, niobium and cassiterite in various geographies in Brazil. This superior sourcing capability will ensure that you have access to high-quality products from the best-fit suppliers at the most competitive prices.

SERVICES

We supply, worldwide, from containerized to Panamax bulk cargoes

Exportation

Through the practical solutions development, we have as our objective to facilitate the commercialization of our clients products and services, consolidating a commercial relation with the buyer abroad. We also provide exportation advisory with quality and excellence, always seeking for the best tributary and logistic solution for our clients. Brazil is one of the world leaders in the field of agricultural products, mainly in the grain field. Being aware of this need and opportunity, we achieve the grain exportation in a modern and effective way meeting the needs of our clients.

Global Ocean Freight Operations

South Agri & Minerals Ocean services Delivering more than your shipping needs

Achieving operational efficiency and a competitive edge in today's uncertain and volatile markets requires a partner who can truly understand your challenges and provides the right solutions that reach beyond shipping.

South Agri & Minerals Ocean Transportation brings true value to your business by leveraging more than 20 years of experience in serving the operations of our own organization in uncertain world markets.

South Agri & Minerals Transportation

The partner of choice in dry bulk shipping

We demand high standards of consistency and excellence throughout our operations, from our business practices to our ship survey programs. You can rely on your cargo arriving safely and on time.

As part of the wider South Agri & Minerals logistics network, we can connect you with our extensive logistics and warehousing infrastructure and offer you tailored solutions that go beyond shipping.

IMPORT

The fertilizer industry is one of the fastest growing sectors in the world and, within that context, Brazil is an important producer and exporter of agricultural products.

At South Agri & Minerals our mission is to help the world grow the food it needs – and customer relationships are central to this mission. We are known for our tradition of excellent service and have built a strong foundation of trust with our customers. From crop nutrition and animal feed to industrial and premium products, our goal is to consistently deliver the superior products and value-added services that our customers have come to expect from us.

We don't stop adding value when we ship our crop nutrients. Our agronomists work closely with our customers to help farmers maximize their yields. Together, we work to achieve balanced crop nutrition on every acre—we want farmers to apply the right crop nutrients at the right time, at the right rate and in the right place.

Brazil is the country is the fourth largest consumer of nutrients. This being a strategic sector for Brazil and growth perspectives in the long term.

We represents major international manufacturers of raw materials for the fertilizer industry to attend the major players in the Brazilian market. The marketed products include: ammonium sulfate, urea, superphosphate and triple, phosphate rock, etc.
